Handling

Usage:

- The protective gloves are always to use only for the intended application. Before using the protective gloves please check them for damage. Please do not use damaged gloves! Do not wear gloves in the area of rotating machine parts (for example: saw blades, drills etc.). Entanglement hazard!

Disposal:

- The gloves have to be disposed in accordance to the applicable disposal regulations of the local authority.

Storage / Transport:

- Store gloves in the original packaging on a cool and dry place and protect them against direct sunlight. Do not store in the region of ozone sources (laser printers, copiers etc.).

Precautions:

- Substances: The gloves may contain allergenic ingredients (e.g. natural latex). In case of skin irritations or allergic reactions consult directly medical advice.

Safety issues

Directions for handling and waste disposal are in our Material Safety Data Sheet and the specifications of the Employers Liability Insurance Association for the chemical industry.

The before mentioned technical data and information, especially the recommendations for applying and using our products, are based on our current knowledge and experience when applied under normal conditions. In practice, the materials, surfaces or site conditions are so different that no warranty regarding the working results or liability, arising out of any relationship, can be inferred neither from this information nor from a verbal consultation, except we are charged with intent or gross negligence. In this case the user is obliged to prove that he has informed us about all points required for a proper and promising judgement in writing, in time and completely. Patent rights of any third party are to be observed. Furthermore, our general sales and delivery Terms and Conditions and the latest Technical Data Sheet, which should be demanded, apply.
